

With a **Bruno Electra-Ride III™**
Model CRE-2100

you can remain in your cherished home. Bruno's Custom Curved Rail Stairlifts

Battery-Powered Operation

lets you once again move easily upstairs and downstairs with a touch of a button.

The **Electra-Ride III** uses two 12-volt batteries that are continuously charged by a state-of-the-art battery charger that plugs into any household outlet.

Bruno's leading edge technology assures you access up and down the stairway even if the electrical service in your home is interrupted.

The Easy-Slide™ seat can be stored effortlessly. The easy to reach lever raises and lowers the footplate without bending over.

The Electra-Ride III is rated for rider weights up to 350 lbs. and custom seating sizes are available.

Bruno manufactures our own ergonomically designed upholstered seats.

CUSTOM CUT STRAIGHT

STRAIGHT WITH TOP OR BOTTOM OVERRUN

STRAIGHT WITH INTERMEDIATE LANDING

90° FLAT OR SPIRAL TURN

Convenient Installation

In addition to peace of mind, battery-power means you benefit from a simpler, easier installation. The stairlift rail can be installed **as close as 7 inches** from the wall **with an overall folded width of just 16½ inches**. The unit anchors to the steps, not the wall. Bruno designs and engineers your **Electra-Ride III** specifically for you and your staircase, to provide the best possible fit and performance.

Value

Your **Bruno Electra-Ride III** is delivered fully equipped so you can:

- Swivel and lock the seat effortlessly at the top and bottom of the staircase for an easy, secure entry or exit.
- Ride securely with our convenient retractable seatbelt and footplate safety sensor that stops the unit if there is an obstruction on the stairway.
- Easily get on and off the seat which can be adjusted specifically for your height.
- Store the seat and footrest effortlessly using the Easy-Slide™ seat and easy to reach lever operated footrest.

Cutting Edge Technology

Bruno is so confident in our ISO 9001 engineering and production processes that we guarantee the fit of all custom built rails based on the approval of the dimensions provided.

The Bruno wireless call/send system uses the latest in digital RF technology for uninterrupted operation. This proprietary wireless technology* allows for easy operation anywhere in the home. The Bruno call/send system also allows for quicker and cleaner installations because there are NO electrical wires to run.

*Designed exclusively for Bruno and authorized by the Federal Communications Commission under Bruno's exclusive ID number NTLPCB4950.

BRUNO

has set the standard with our

Precise, Reliable Drive Unit

award-winning custom curved stairlift designs by offering a smooth ride both

up and down stairs and through turns, a ride unequalled in the industry.

The **Electra-Ride III's** smooth, powerful drive system combines a self-locking worm gear and rack and pinion design. This provides the safest operation and longest lasting durability for years to come.

The soft-start, solid state controller features a secure, comfortable ride and includes an adjustable speed control that lets you select the riding speed that will make every trip a pleasure.

Electra-Ride III Model CRE-2100 Specifications

Exceptional Value

- Locking swivel seat, at the top and bottom of the stairway.
- Two remote, wireless call send controls.
- Generous seat size (20" between the arms) for a comfortable ride.
- Footplate safety sensor and retractable seat belt.
- Charging station indicator lights at the top and bottom of the stairway.
- On board diagnostics make service easier and more precise.
- Meets all ANSI - A18.1 residential and commercial requirements.

Comfort

- Adjustable seat height (23" - 26" measured at the lower landing) for easier entry/exit at the top and bottom of the stairway.
- Seat is contoured to provide optimum comfort.
- Custom seat and seat coverings available.
- Seat coverings meet CA flammability regulation 117-75 Sec. E.

Battery-Powered Technology

- Ensures access, even during power outages.
- Powered by two 12-volt batteries, continuously charged by a state-of-the-art 3 Amp battery charger that plugs into any 110-volt household outlet.
- Requires no special wiring.

Smooth, Powerful Drive System

- Self-locking worm gear, rack and pinion drive.
- Maximum rider weight of 350 lbs.
- Soft start, solid-state controller makes it possible to adjust the speed to the comfort of the user.

Convenient Installation

- Rail installs to within 7" of the wall.
- Installations can be done on either the inside or outside of most staircases

BRUNO
Electra-Ride III™

Tight Radius Inside Turns

The *Electra-Ride III Inside Turns* fit where most custom stairlifts will not. Bruno Inside Turns are perfect for the typical bi-level house while providing easy passage through doors and room entrances.

Bruno's optional 90° and 180° park positions provide a cleaner appearance.

Bruno's Wrap-around Park Positions save you room on your staircase and allow you to easily enter and exit the stairlift away from the stairs.

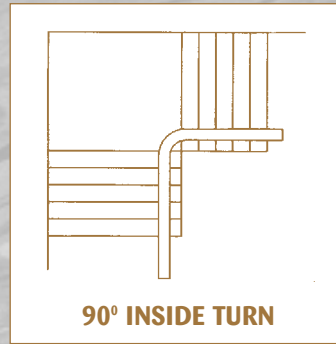

BRUNO INSIDE TURNS give you the flexibility of having your unit mounted on either side of the staircase.

Bruno's tight turn and narrow rail will keep the majority of your staircase free of obstructions.

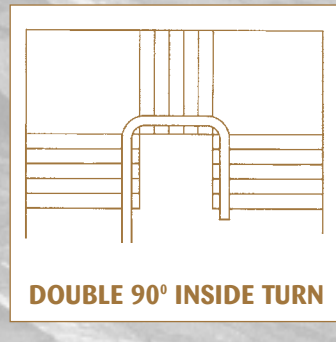

When the unit is not in use, the chair can be parked around a corner.
